Editor: Archana Sharma

Multipurpose detectors for high energy physics, an introduction	
F. Hartmann and A. Sharma	1
A magnet system for HEP experiments	
A. Gaddi	10
Silicon tracking detectors in high-energy physics	
F. Hartmann	25
Electromagnetic calorimetry	
R.M. Brown and D.J.A. Cockerill	47
Hadron Calorimetry	
N. Akchurin and R. Wigmans	80
Muon tracking and triggering with gaseous detectors and some applications	
A. Sharma	98
Transition radiation detectors	
A. Andronic and J.P. Wessels	130
Particle identification	
C. Lippmann	148
Alignment systems in LHC general purpose detectors	
J. Bensinger and T. Rodrigo	173
Electronics and data acquisition	
H. Spieler	197
